Valley of the Sun
United Way

Help...Volunteer Opportunities...Resources...Information

Whatever your human service needs may be, this Help Guide and Program Directory is designed to be your one-stop reference guide.

Valley of the Sun United Way is working to advance the common good by focusing on education, income and health. These are the building blocks for a good life: a quality education that leads to a stable job, enough income to support a family through retirement and good health. Our goal is to create long-lasting and measurable changes that improve the quality of life for struggling individuals, families and children throughout Maricopa County. Together with government, business, nonprofits and individuals, we address the most critical human care needs in our community.

Through more than 200 results-driven programs, thousands of individuals in the Valley are touched by United Way every year. The local nonprofit organizations listed on the following pages are United Way's partner agencies, providing a safety-net of services for our entire community. More than 100 community volunteers evaluate each program for effectiveness and efficiency, and carefully invest in programs that have a lasting, positive impact in the community.
